Dear Bill,

I'm very glad for your letter.

Most interesting article about "King Moon."

Regarding worshipping with Blacks, I'm disappointed because our little church has several families, one of them mixed. Irma has attended there for over 30 yrs. & since I'm her wheelie, am enduring.

You are the only inmate who knows "11 more months & 10 more days."

My father played the "fiddle" for dancing. I wish your uncle would transfer the records to cassettes. I love music, mostly classical & old tunes. I also like a little beer, but don't drink alone. My step-mother was Italian, so we grew up drinking a little wine & beer. Now Irma can't stand it.

Regarding Bert & Wesley, they did his research & he read a lot & had a photographic memory. I would hope that knowledge would increase as time goes on. At one time, believe it or not, the scene passed before Hess' eyes & all he did was to describe it. That's when he talked fast.

David Moore has a radio health program. He may be too busy to write. He phones me occasionally. I bought his book about health, but it's hard to get time to read.

I have waiting at the doctor's office & started a little book telling of Vietnam P.O.W.s. You have probably heard of Jeremiah Denton & Eugene "Mac" Daniels' 6 years of captivity. The book is "Scars & Stripes." Printed in 1975.

I'm glad you are still in touch with Jeanne. Wish I were up in the woods with them.

Still no rain. A couple of days ago dirt bled.

I don't know if I told you that Wes was a sportsman with a collection of beautiful firearms. I was glad to go hunting & fishing with him or usually family or church friends. The fellows would sit visiting in the living room & finally one would ask, "What's on the table?" That would start a soap. Good times. I haven't been to my favorite Sierras since his release 34 yrs ago. See there to around that. Jeanne & I went to the ghost town Bodie beyond Bishop. We had always driven past the sign en route to hunting. Most interesting.

Last weekend my 2 big men cousins & I rode cane for the 50th High school class reunion. They had a great time. The only difficulty, we couldn't wait long enough. One drove 465 mi. (N. Cal.) arriving at 4 pm. afternoon, the other 400 mi.

from Trosa, Oz. 400 mi. arriving at 6:30.
They slept at our places, but left Sun. morn.
Bob phoned when he arrived home at 4. Windy
en-route. By-the-way, gas prices were \$3.35/gal.
at one station he paid \$3.65. Outrageous!

I look forward to your translations.

May Yahweh especially bless you,
Lorraine
